To the Sommelier

Dear Friend,

Many thanks for the most interesting evening with ham, cheese and wine we had the pleasure to experience assisted by You in Boccondivino on Thursday the 30th of January (1997) together with our business friends from Polytype Italia.

We really enjoyed ourselves and we learned a lot more about the excellent gastronomy and the oenology of Italy. Once again we could state that the more one try to learn about Italian wines the more new things come up showing the rich and multifold variety in the wines of the different regions.

Wine is the most agreeable subject to discuss. It gives us the possibility of feeling ourselves both comfortable and relaxed. It gives a free scope to our imagination and above all moments to remember with good friends.

Please have our compliments for the assistance and the commitment and for the knowledge You shared with us.

Dear Fabrizio,

It is almost a year since we had the great pleasure to visit Boccondivino with my family. The evening by Yours was an event which gave both my wife and my daughters a lot of charming memories and a great knowledge of Italian wines and gastronomy. We have been talking about the evening many times together since that. I send you some photos which show You the feeling that we experienced.

The Plastics Exhibition in Milano will take place again and we intend to be there on 7th – 9th of May, i. e. after two weeks!

We are planning an evening at Boccondivino on Wednesday the 7th of May and therefore want to make a reservation for 5 persons.

We hope that you have a table for us then arriving at 8.00 PM.

Looking forward to see You again we remain

Sincerely Yours
